

# AndroBar

# Liquor Control

Optimize your operations and protect yourself from "over-pouring" with our proven and tested system.

**Encourage "upselling"**

**Preparation instructions**

**Punch-To-Pour<sup>©</sup>**

**less training**

**constant recipe preparation**

**Manage the right amount to pour and the right ingredients**

Compatible with all POS systems with our Universal interface.

Every order appears on the pouring station, with the exact ingredients to pour including instructions.

Group same drinks for repeat pouring

Pause function allows to completely empty the bottle
